SUPPLEMENTAL EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Connors on July 14, 2004.

2. The application has been amended as follows:

IN THE CLAIMS:

Claims 10 and 28 have been cancelled.

In claim 11, on line 1, "The knee pad of claim 10 where" has been changed to

-- A knee pad adapted to cover the knee of a user comprising
a body having an open side, an elbow section and a leg section,
said elbow section and a leg section joined to form a corner, and
a strap member attached to the leg section that enables the user
to secure the knee pad to the user's knee with the knee placed into the
open side and seated against the corner,

said body being formed from a plurality of separate segments including a front segment having opposed side edges and an inner edge, a pair of side segments, and an elbow segment, each side segment attached to one of the opposed side edges of the front segment, and the elbow segment attached to the inner edge of the front segment,

said side segments being substantially at a right angle to the front segment when the strap member secures the knee pad to the user's knee wherein --.

In claim 29, on line 1, "The method of claim 28 where" has been changed to

-- A method of making a knee pad adapted to cover the knee of a user comprising

(a) providing plurality of separate segments each made of a durable, pliable sheet material, said segments including a front segment having opposed side edges and an outer edge and inner edge, a pair of side segments each having an inner edge, outer edge, a forward end and a rear end, and an elbow segment having opposed side edges and an inner edge and an outer edge, said side edges of the elbow segment being spaced apart so that the elbow segment is longer than a predetermined width of the knee pad being made,

(b) forming said segments into a body having an open side, an elbow section and a leg section by

(i) overlapping a portion of the front segment along the inner edge of the front segment with a portion of the elbow segment along the inner edge of said elbow segment and connection the overlapping portions together,

(ii) overlapping the front segment along one side edge with a portion of the one side segment along the inner edge of said one side segment and connecting the overlapping portions together,

(iii) overlapping the other side edge of the front segment with a portion of the other side segment along the inner edge of said other side segment and connecting the overlapping portions together, and

(iv) overlapping a portion of the front segment along the inner edge of the front segment with a central portion of the elbow segment along the inner edge of said elbow segment and connecting the overlapping portions together so that opposed portions of the elbow segment at said side edges of the elbow segment may be bent inward,

(v) bending the connected segments inward and overlapping the opposed portions of the elbow segment respectively with the forward ends of each side segment and connecting together the overlapping portions the

Art Unit: 3765

opposed portions of the elbow segment with each said forward ends, and

(c) attaching a strap member to extend between the side segments, said side segments and said elbow segment being substantially at a right angle to the front angle to the front segment when the strap member secures the knee pad to the user's knee wherein --

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
